PROVIDER

WELCOME TO EDUCLI

Educli is a cloud based Student Management System that provides a range of tools and features for education providers, agencies and students. Educli was created to improve staff performance, streamline processes, save costs and improve efficiency and timely service delivered.

International education industry is historically one of the top industries and has grown enormously in the recent decades, however it still uses archaic processes. Many education providers are still using outdated technologies and systems. This opens opportunities for implementation of latest technologies while saving costs and HR expenses.

THE FUTURE IS HERE!

Our Management software Cloud and Mobile platform that will help you simplify the process, giving you all needed tools and access to your data. By using our system you will be able to save time and costs using simple clicks to ensure your procedures are being followed.

ENROLMENT

We transform paper-based process into smart online forms obtaining relevant questions from the applicants. You can easily customize and manage the application form for your students and monitor application progress until finalisation of enrolment.
